

firestep::Thread

```
graph BT; A[firestep::MachineThread] --> B[firestep::Thread]
```

The diagram illustrates an inheritance relationship between two classes. At the bottom is a box labeled 'firestep::MachineThread' with a light gray background. A red arrow points vertically upwards from the center of this box to the center of a box above it labeled 'firestep::Thread', which has a white background. This indicates that 'firestep::MachineThread' inherits from 'firestep::Thread'.
